**BAND BIOGRAPHY:**

Formed in 1995 as one of the first black metal bands that sing in German, EISREGEN caused quite a stir in the German metal underground scene with its first releases in 1996. The debut album „Zerfall“ was released in 1998 and is considered a classic and still the bestselling German-language black metal albums to date. The second album, released in late 1998, practically made the band famous overnight and they also started to slowly get rid of their black metal sound. Since then the band has never been lazy, they continuously strengthened their status as the leading German extreme metal band and played live a lot. They've gained a cult status and are followed by a loyal fan base in all German-speaking regions.

2018 brings the new MCD „Satan liebt dich“ in June as well as the band's 13th studio album „Fegefeuer“ in October, which will be accompanied by a headliner tour.

EISREGEN has entered the German Media Control Charts with numerous releases, with the last two albums entering the Top 20.

Meanwhile, feuilletons also became aware of the band. The well-known Swiss author Thomas Glavinic wrote about band leader M. Roth in the newspaper DIE ZEIT in December 2017: „Michael Roth eludes a description of what he is, what he does and what he can do. He is a genius in a field that never had a genius before.“

It will be interesting to see, where the path will lead and what the future will bring.

#### **ALBUM INFOS:**

Band leader M. Roth about the MCD:

„We were quite busy in the past weeks and months, working on our upcoming album „Fegefeuer“, which is set to be released in late October 2018.

Since we still need a few more months to complete it and add the finishing touches and to shorten the waiting time until the actual release, we decided to release a MCD with the beautiful title „Satan liebt dich“ (Satan loves you) on June 8, 2018.

The release will feature 7 previously unreleased and never-before-heard songs. This includes the title track, which will also be accompanied by a video clip, the high-speed track „Fahlmondmörder“ as well as a medley, featuring certain songs, that has only been played live; the title „13 russische Krebschweine“ (13 Russian Cancer-Hogs) will surely make a lot of fans happy.

We've also noticed that we have never made a song about Fritz Haarmann – until now. „Onkel Fritze“ will come in 2 versions: the first version will feature my lyrics and vocals and the second version will feature lyrics written and vocals performed by Yantit, which will be especially interesting for fans of Transilvanian Beat Club.

Our friendship with Pungent Stench is not a secret, and Martin also contributed guitars to „Fleischfilm“ - that is why it was about time to do cover songs of each other. We recorded a cover version of the Stench classic „For God Your Soul“ and Schirenc does not play Pungent Stench this time but EISREGEN and performs „Mein Eichensarg“.

You see, the MCD has a lot to offer...“
